# AK - Concept: Monitoring System Application

Created by: Anton Kopylow

INDIVIDUAL SOFTWARE SOLUTIONS

## Contents

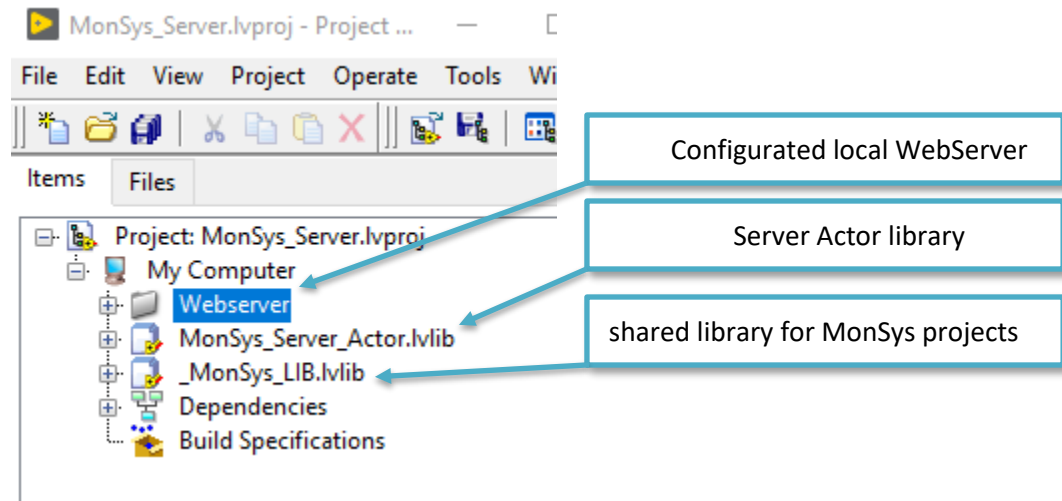

---

Get Started.....	3
------------------	---

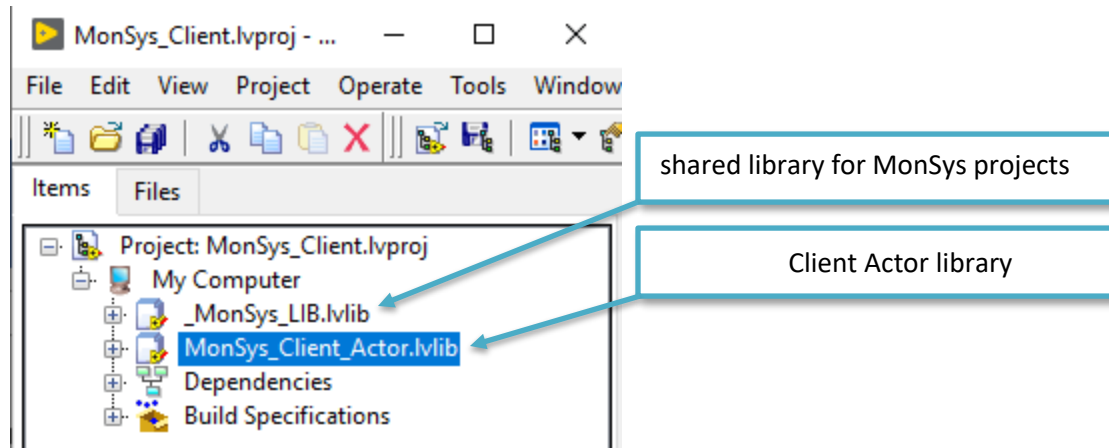

## Get Started

1. Start both projects. (MonSys\_Client and MonSys\_Server)

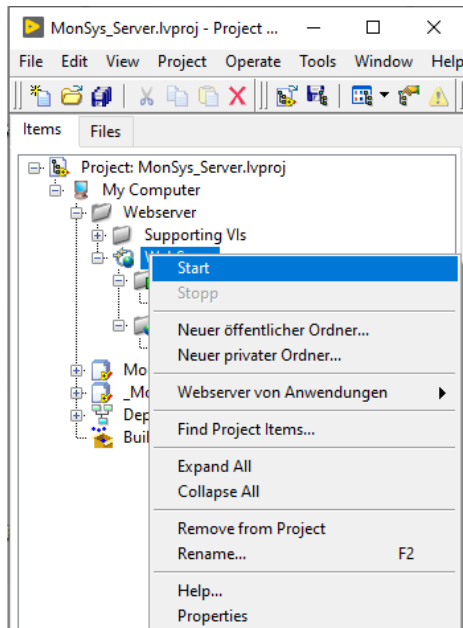

### MonSys\_Server.lvproj:

### MonSys\_Client.lvproj:

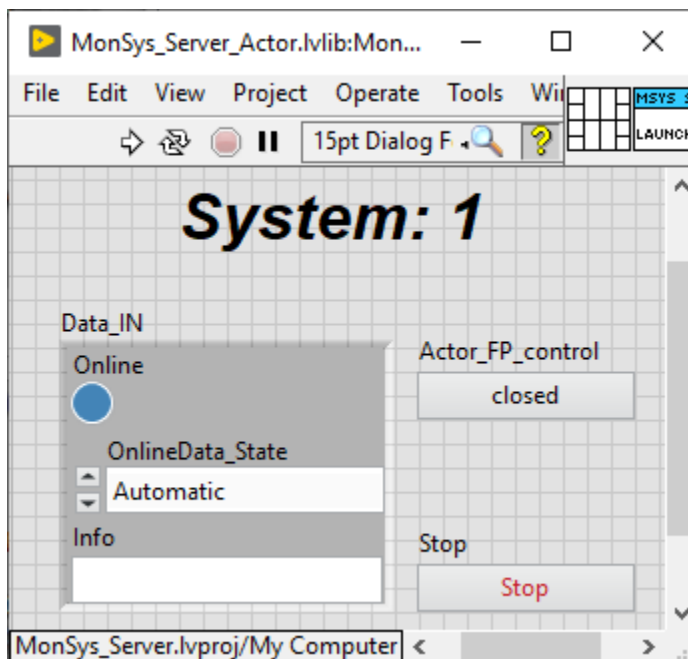

## 2. Start WebServer in MonSys\_Server project

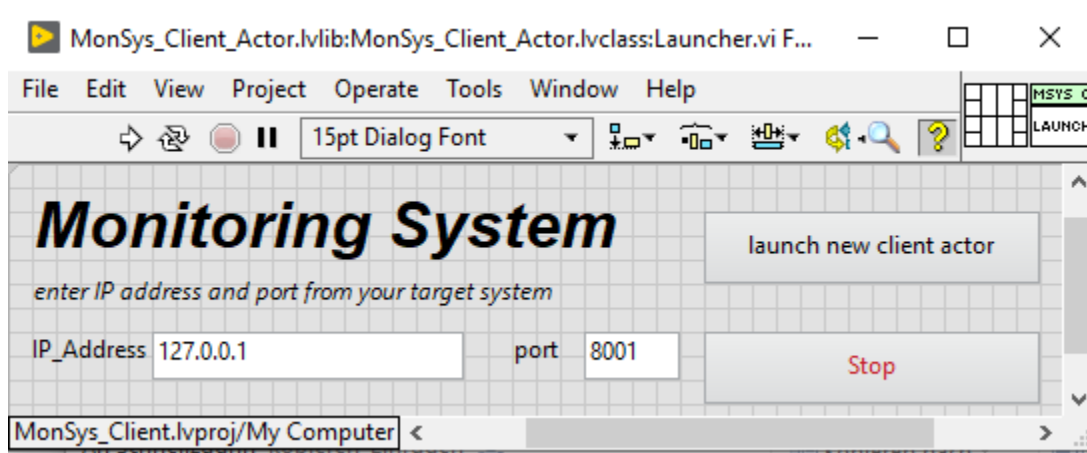

## 3. Start "Launcher.vi" in both projects

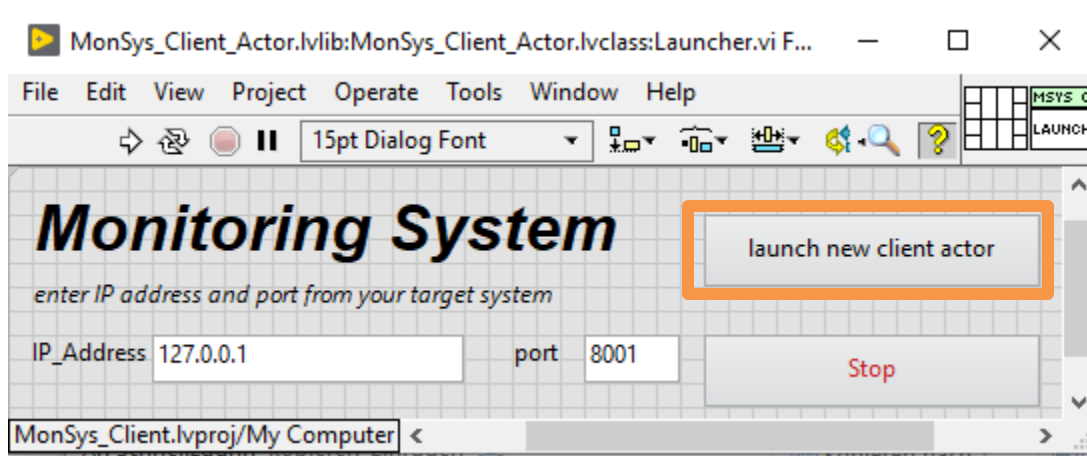

### Launcher.vi in MonSys\_Server project:

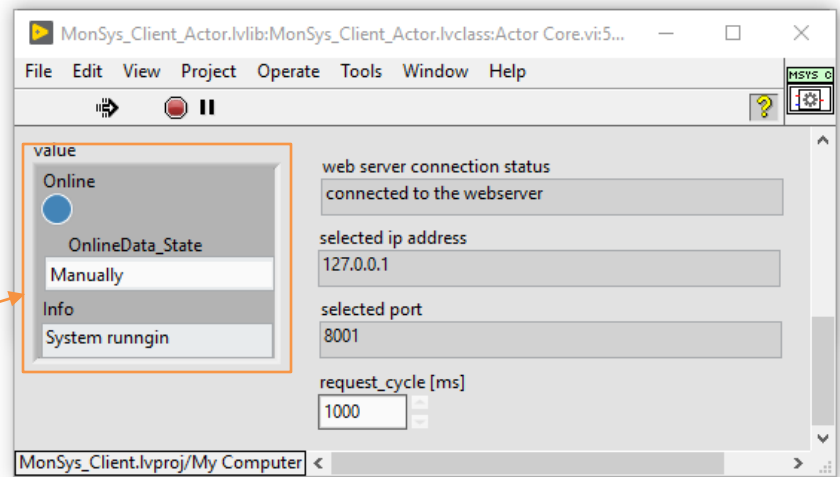

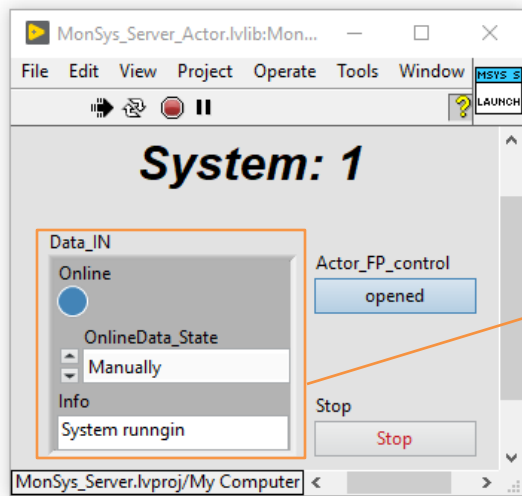

## Launcher.vi in MonSys\_Client project:

4. In "Launcher.vi" from "MonSys\_Client project click on "launch new client actor" button

5. Check the connection by changing "OnlineData" Cluster in "MonSys\_Server:Launcher.vi"

*Now you are ready to test this with multiple Systems....  
Have fun 😊*
